'He talked my language'

Bill W. at an AA Meeting

'What did the man do or say that was different from what others had done or said? . . . he was the first living human with whom I had ever talked, who knew what he was talking about in regard to alcoholism from actual experience. . . . he talked my language.'

'If you still think you are strong enough to beat this game alone, that is your affair. But if you really and truly want to quit drinking liquor for good and all and sincerely feel that you must have some help, we know that we have an answer for you. It never fails if you go about it with one half the zeal you have been in the habit of showing when you were getting another drink.'

- Doctor Bob recounts his first meeting with Bill W. *Alcoholics Anonymous, pp.180-1*
